To Whom It May Concern,

RE: Lisa Shore

I saw Lisa Shore on Tuesday, June 16, 1998 upon referral by Dr. R. Wilder from the Boston Children's Hospital. I had the opportunity to review Dr. Wilder's referral note as well as the report from the Hospital for Sick Children. I agree with Dr. Wilder that Lisa's problem is most compatible with a complex regional pain syndrome/reflex sympathetic dystrophy syndrome.

Please contact me if you have any questions.

Sincerely,

Ronald M. Laxer, MD, FRCP(C)
